SUMMARY

BS Software Engineering student at FAST NUCES (Class of 2027) with a strong foundation in C++, SQL, and full-stack web development using React.js, Node.js, Express.js, and MongoDB. Skilled in designing intuitive UI/UX with Figma and deploying scalable applications on Vercel. Driven by curiosity and a problem-solving mindset, eager to learn emerging technologies, collaborate with innovative teams, and contribute to impactful projects.

TECHNICAL SKILLS

Languages: C++, JavaScript, SQL
Frameworks: React.js, Node.js, Express.js
Developer Tools: Git, VSCode, Figma

EDUCATION

National University of Computer and Emerging Sciences (FAST-NUCES) <i>BS Software Engineering</i>	Lahore, Pakistan 2023 – 2027
---	---------------------------------

PROJECTS

QuickShow <i>React.js, Node.js, Express.js, MongoDB, Vercel</i> – Built a full-stack movie ticket booking system with an admin panel for movie/show management and a responsive user interface for ticket booking. – Integrated movie listings, show scheduling, and booking list features; deployed on Vercel for fast performance and scalability.	June 2025 – July 2025
Student Synchronization <i>WinForms, MySQL, Figma</i> – Built a Student Database Management System with secure multi-role authentication for Students, Admins, and Teachers. – Implemented dashboards for grade management, course administration, attendance tracking, and student records.	Feb 2024 – May 2024
ProjectPulse <i>WinForms, MySQL</i> – Developed a project management tool inspired by Jira, enabling task tracking, team collaboration, and deadline monitoring. – Built an intuitive WinForms interface with robust database integration for seamless data handling.	Mar 2025 – Jun 2025

ORGANIZATIONS

- **SOFTEC (FAST-NUCES)** — Deputy Head, App Development
- **ACM NUCES** — Deputy Head, Public Relations
